

Dear Banana Moon Families,

Last week, we introduced you to Moon, the heart of the Banana Moon curriculum and a special friend who will help guide children as they learn, explore and grow.

Now, Moon has someone very special they'd like you to meet...

Meet Bongo Bear!

Bongo Bear is Moon's music-loving friend, and there's nothing Bongo enjoys more than helping children discover the wonderful world of music.

Through rhythm, movement, instruments and sound, Bongo helps children explore, express themselves and discover that music really is all around them.

And this September, Bongo Bear is bringing something exciting to Banana Moon...

Introducing Our Little Musicians Enrichment Programme

Beginning 1 September, alongside the start of our new term, Little Musicians will launch in our Mini Moons and Full Moons rooms as the first of our new enrichment experiences.

Through engaging, hands-on musical activities, children will have opportunities to recognise instruments and their sounds, explore different rhythms and discover music in new and exciting ways. All while supporting important areas of their learning and development.

Moon can't wait to introduce you and your little one to their musical friend!

And There's More to Look Forward To...

If your child is currently in Mini Moons or Full Moons, you'll hear more from us soon about what they can look forward to when Little Musicians begins on 1 September.

And if your little one is in Baby Moons or Teenie Moons, this is a glimpse of the exciting enrichment experiences waiting for them as they continue to learn and grow through Banana Moon.

We can't wait for our children to begin making music, exploring new sounds and learning alongside Moon and Bongo Bear this September!

Every child has their own light to share. Together, we shine brighter.
